...What Josef Hofmann Says of the Wonder-
...ful DUO-ART REPRODUCING PIANO
...I am sending you, by Mr. Schaad, the first of my completed
...Duo-Art Rolls.
...The making of these rolls has required hard and painstaking
...work and I have spent many hours on each different composition,
...but I am quite confident you will agree with me that the results justify
...all the effort made. These rolls correctly reproduce my phrasing,
...accent, pedaling and, what is more, they are endowed with my
...personality. Yes, incredible as it may seem, I have succeeded in
...actually embodying in these rolls that subtle something which, for
...want of a better term, we call personality. They are indeed my
...actual interpretations with all that implies.

...As you know, before I entered into an agreement to
...play exclusively for the Duo-Art, I made a very thorough
...investigation and convinced myself that your instrument
...was superior to all other reproducing pianos. During
...the past few months I have had a Duo-Art in my home
...at North East Harbor, and my enthusiasm for this
...wonderful instrument has increased as my familiarity
...with it has grown.

...One thing is certain: in the reproduction of my own
...playing the Duo-Art is so far superior to any other in-
...strument of its kind, there can be no real basis for
...comparison.
...Sincerely yours,
...JOSEF HOFMANN.

...The Duo-Art is made in either the Steinway, Stock, Stroud or the famous Weber models. It re-
...produces in every minute detail of expression the playing of the world's great pianists. In addition to
...this it is a perfect Pianola, electrically operated, allowing the operator the opportunity of voicing his
...own musical feelings and interpretation. It is also the finest piano possible to obtain for hand playing,
...either in Grand or Upright models. The Geo. J. Birkel Co. are exclusive agents. Prices begin at \$1025.
...The famous Aeolian Players (without the Duo-Art feature) as low as \$600. Very liberal terms if desired.

TO SPAN NATION WITH HIGHWAYS

Angeleno Urges Three Cross- Country Routes.

Would Have Them Built Like
Roman Roads of France.

Seeks Federal Aid Toward
Starting Work this Summer.

(EXCLUSIVE DISPATCH)
WASHINGTON, Feb. 19.—H. J. Whitley of Los Angeles, one of the
pioneers in good roads and boulevard building in Southern California,
has been in conference with Senators
and Congressmen here several days
seeking some plan for building three
national highways across the country.

Mr. Whitley believes this work
should be started at once to provide
employment for thousands of re-
turning soldiers and to make use
of the motor transport released by
the returning army.

He would have roads built under
Federal control and according to
Federal specifications in such a way
that they would be lasting as the
Roman roads of France.

Having been one of the men who
created Sunset boulevard and Sher-
man Way in Southern California, Mr.
Whitley is using his time and influence
here to secure legislation that
will result in the triple road from the
ocean to the ocean.

He likes the idea put forward by Fourth Assistant
Postmaster-General Blackles, who
advocates one transcontinental high-
way via St. Paul and the northern
tier of States to Seattle and Tacoma,
a second through Omaha and Denver
to San Francisco, and a third by
way of the southern route through
El Paso and Yuma to Los Angeles.

He is also very much in favor of
the plan of Senator Townsend to
create a national highway commis-
sion of five members to make a na-
tional system of highways and ap-
propriating \$425,000,000 during the
next five years to bring about a con-

tinued system of good roads. This
plan contemplates the co-operation
of all States and provides that no
Federal aid shall be given unless
States contribute in like manner
with the national government.

Mr. Whitley is seeking some action
that will permit this work to start
this summer and to permit the employ-
ment of large forces of men and
the use of machinery built for the
war. He believes that no more pres-
sing work is before the country, and
feels that no other means of close-
ly uniting the States and particu-
larly the Far West and Rocky Moun-
tain States with the East can be
developed with such great prosperity
to all parts of the country.

Two NAVAL OFFICERS
FACE GRAFT CHARGE.

THREE ARRESTS MADE WHEN
INQUIRY DISCLOSES ACCEPT-
ANCE OF BRIBES.

(BY A. P. NIGHT WIRE)
WASHINGTON, Feb. 19.—Lieut.
Benjamin Davis of the Medical
Corps and Assistant Paymaster Paul
Beck, both of the Naval Reserve
force, have been ordered tried by
court-martial in connection with
charges of bribery and graft in the
Third Naval District at New York.
This announcement was made to-
night by Secretary Daniels.

Both Davis and Beck are under
arrest and it was learned that a
third arrest was made today. The
name of the third officer was not
revealed, however. Davis's home is in
Plymouth, Pa., while Beck lives in
New York City.

It was announced that sufficient
evidence had been submitted in a
preliminary report by investigators
to warrant these trials immediately.
Secretary Daniels said at least two
other cases were developing.

ALLEGED BRIBES.
It was learned that one case in-
volved a bribe of \$500 to secure a
medical officer of a bribe of \$1000
for passing up a report on a man
not physically qualified for the duties
he sought, and another case in-
volved a bribe of \$1000 to secure a
detail which would permit the ap-
plicant to remain at home in-
definitely.

Mr. Daniels said there was no
evidence of similar conditions in
other districts or stations and that
he personally believed the extent of
the irregularities in the Third
District, which has headquarters at
New York, had been greatly exag-
gerated in unofficial reports. He
stated that the department would
search the matter and to the extent
as soon as circumstances warranted
would give every detail to the public.

CONTINUE INVESTIGATION
(BY A. P. NIGHT WIRE)
NEW YORK, Feb. 19.—Investiga-
tion of the charges of bribery and
graft on the part of the personnel of
the Third Naval District was still
under way and would not be com-
pleted for several days, possibly
longer, this morning, the district
headquarters today.

UTAH ASKS ROUND-UP OF RENEGADE INDIANS.

(BY A. P. NIGHT WIRE)
SALT LAKE CITY, Feb. 19.—The
Utah Indians' uprising in San Juan
county, Utah, in 1845, in which one
white settler and two Indians were
killed, is recalled in a House joint
memorial introduced today in the
State Legislature by Representative
Nelson. The memorial asks Con-
gress to round up the Indians in
that county and keep them on the
Utah reservation for the protection
of citizens and property.

The memorial recites that ever
since the settlement of the county
there has been a renegade band of
Utes roaming over the country with-
out confinement on a reservation
government by law. The Indians,
according to the memorial, are
armed with high power rifles and
have plenty of ammunition.

articles, put inferior material in-
to some of the shoes they turned
out for the army, was given today

ment.

NEARLY 100 PRUSSIAN EX-

By Edwin L. James.
(ATLANTIC CABLE—EXCLUSIVE DISPATCH.)
COBLENZ, Feb. 18.—Between sev-
enty-five and a hundred applications
for commissions in the American
army have been received from Ger-
man officers by the advanced general
headquarters of the American Expe-
ditionary Force here.

The applications come from of-
ficers ranging from Lieutenants to
majors. In the majority of cases
their letters set forth that they are
professional soldiers; that the Ger-
man army has disintegrated; that
they have learned in the field to ad-
mire the stuff the American army
is made of, and that as professional
army men they would like to join
our outfit. Some of their letters con-
tain the complete records of service.
One captain who applied had been
attached to the German General
Staff.

The reply to all letters is the
same: "The United States Army is

mans during the period in which the
United States is at war with Ger-
many."

Employers' Association and of the
Building Trade Unions failed to
reach an agreement for settlement
of the threatened nation-wide strike
at conferences here today and to-

Labor departments.

Ronald Taylor, president of the
employers' association, said it would
not arbitrate unless the men now
returned to work, because in strik-
ing without resorting to arbitration,
as provided for, they had violated
their contracts.

William L. Hutchinson, president
of the United Brotherhood of Car-
penters and Joiners of America, said
the men would not go back to work
and that others in the parts of the
country would be called out unless
the workers' demands were met.

A statement issued at the War

ference said:

"The controversy between the em-
ployers and the workers was thor-
oughly discussed and another meet-
ing will be held in New York, and

WITNESSES SAY DEFENDANT
BROUGHT UP IN ATMOS-
PHERE OF HATRED.

(BY A. P. NIGHT WIRE)
NEW YORK, Feb. 19.—Several
witnesses, who professed hatred for
England, but love for the United
States, testified in Federal court to-
day in defense of Jeremiah A.
O'Leary, former editor of Bull, on
trial for alleged violations of the cap-
sionage law.

O'Leary questioned these witnesses
himself, drawing from them state-
ments that they had attended meet-
ings at which he spoke, and that
they never heard him make a sedition-
ary utterance.

O'Leary shed tears when a witness
described the early life of the
O'Leary family in Glen, N. Y., de-
claring that Jeremiah had been
brought up in an environment in-
spiring hatred for England.

Later he clashed with Judge
Hand, presiding, over an attempt to
call the jury's attention to a statue
of Nathan Hale over there in City
Hall Park, with an English rope
around his neck. When the court
refused to permit questioning of a
witness on the subject, the defendant
retorted:

"If one can't have free speech
about England they had better take
down the statue."

BRITISH ARMY PLAN OUTLINED.

Says Churchill.

Defense of Empire Needs

Employers Urged to Hold Jobs
for Returned Men.

THE ATLANTIC CABLE AND A. F. I.

LONDON, Feb. 19.—Winston Spencer Churchill, Secretary for War, paid a high tribute to Premier Clemenceau in a speech today at a luncheon at the Madison House on the subject of demobilization and the Army of Occupation.

"Before we come to the business which forms the reason for this gathering," he said, "I am sure you would wish me to express sentiments, which everyone feels, of dejection against the outrage attempted upon Premier Clemenceau by some vile hand, and our great satisfaction and relief that, so far as we are at present informed, he is in no serious danger.

"There is no living man, perhaps for many years there has been no man, who has more fully embodied in his own personality the valiant soul of the French nation struggling against odds and determined to be victorious. He has animated not only the brilliant nation of which he is the political chief, but all who have been brought into contact with him in every part of our grand alliance through this struggle, and today he represents as much as anyone does the virtue, manly, sober, sane qualities which are greatly needed at the present time, not less needed now than that fighting he stopped when they were in the days when actual fighting was proceeding upon the front."

The object of the meeting, said Mr. Churchill, was to ask the employers throughout the country to do their best now to reabsorb the men returned in the army that their places would be kept open for them.

"We have introduced a new scheme," he continued, "for organization of the army appropriate to the immediate situation, under which we propose to retain about 360,000 men for the defense of the British and Allied interests during 1919.

"We are letting go three out of every four serving with the colors on November 11, last year, and we are paying the fourth man double to finish up the job. All information received goes to show that the soldiers regard this treatment of the problem as essentially fair.

"We are engaged at the present time in forming a volunteer army to garrison the British Empire, recreating the old army which served us so well through all the years of peace and was not found wanting when the hour of battle came. But at least a year will be required to form this volunteer army. At the present time we are obtaining recruits and volunteers, some with two or three years' service, at the rate of more than a thousand a day and the rate is rising.

LOSE FRUITS OF WAR.
"If we dispersed completely the present compulsory army before we got a voluntary army, we should not only lose the fruits of the war, but lose the British Empire we had before the war. We should not only be unable to discharge our responsibilities in Palestine and Mesopotamia and with regard to Turkey, but India, Egypt, Gibraltar, Malta and all our great fortresses would be left unprotected.

"The British people have never failed to do what was necessary to safeguard the vital interests of the state. Let them beware who would try to rob us of the fruits of victory, whether they are German or Turkish enemies abroad or bad citizens at home.

"There is another reason why we require to maintain a large force in the present year. We have just had a war with Germany, we have spent a great deal of money and have lost a great many of our best men in winning it, and we are going to make sure we do not have to fight that war with Germany over again. We are to take measures which will make it physically impossible for Germany to begin a war of revenge, at any rate during our lifetime. We are going to ask Germany to agree to these measures and help us carry them out. And after she has agreed we are going to stand by and see that she does carry them out, not only in the letter, but in the spirit.

"There is another reason why we require to maintain an army in Germany for some time longer. We are going to make Germany pay what is right and noble in reparation. The loss of the damage she has done. Both to prevent a renewal of the war, by effectually disarming Germany, and to secure reparation on which we are determined. It is necessary to maintain a strong, compact, well-disciplined army of the Rhine for some time to come. That army cannot be maintained on the voluntary basis.

"We are raising volunteers by every means in our power, as quickly as we can, but the first use we shall make of these volunteers is to relieve the men maintained in India and other far distant stations at present by compulsion and let them come home. We cannot hold out any expectation of creating and maintaining an army on the Rhine on any other basis in the present year than on the compulsory basis.

"We are not keeping large forces to fight in Russia; we have no intention of sending large British armies to fight in Russia. If Russia is to be saved, she must be saved by Russia. It must be by Russian manhood, Russian courage, Russian virtue that the rescue and regeneration of this once mighty nation, this famous breeding ground of the European family, can alone be achieved.

"The aid which we can give to those Russian armies who are called into the field originally during the German war, to some extent by their own inspiration, and who are now engaged in fighting against the foul barbarism of Bolshevism, can be given by arms, munitions, equipment and technical services raised upon a voluntary basis. But Russia must be saved by Russian exertion, and it must be from the heart of the Russian people, and with strong arm that the conflict against Bolshevism in Russia must be maintained.

"Therefore it is an untruthful, malicious statement to say it is necessary for us to prolong the action of the military services because of an enterprise which we have on foot in Russia."

Up in the Air in a Captive Army Balloon.

Watching for the Big Air Circus at the Arcadia Balloon School Saturday. Left to right, those in the basket are Capt. Maenner of the school, Miss Ercel Cheshire and Miss Neona Hines.

CHANCE TO GO UP IN AIR.

To Allow Spectators at Arcadia Circus in Balloons; Many Feats Planned.

Lieut. Harry P. Ashe, one of the expert aviators at the Arcadia balloon school field, was chosen yesterday to make a flight over Los Angeles tomorrow. He will use a Curtiss army plane of the bombing type and will drop thousands of invitations to attend the aviation and balloon circus on Saturday.

Lieut. Ashe was chosen because of his work on the western front, where he scored many successes as a scout for the American army. Cadet Reed will ride with him as observer and will drop the leaflets from a height of from 2000 to 4000 feet.

Maj. R. S. Bamberger, who is in charge of the programme, yesterday had a dress rehearsal. There was at first some doubt as to whether the double parachute drop could be held, but twenty aviators already have volunteered for the feat and today Maj. Bamberger will decide who is to be the actual performer.

Permission was granted yesterday by Lieut.-Col. L. J. Myatt, commander of the balloon school, for spectators to ride in the balloons on Saturday afternoon. The baskets will be sent aloft firmly held by the winches, whose wires permit the gas bags to rise a distance of 3000 feet. From that height the surrounding country as far as the beach cliffs can be easily seen.

Seven hundred soldiers at the balloon school were given their final instructions yesterday as to what must be done on Saturday. Comfort stations are being provided at convenient places on the grounds and arrangements were made to entertain at least 50,000 spectators.

Lieut. C. H. Welch is one of the skilled aviators who will have a part in Saturday's demonstration. He has seen service overseas and is to be at the helm of a dirigible.

All roads to Arcadia will be carefully marked. Special trains will be run over the Pacific Electric and all of the outside towns will be given an extra service. The cars will take the passengers directly to the grounds.

Tickets were placed on sale yesterday at the R. H. Dyer Company, 307 West Seventh street, and at the Chamber of Commerce Building, on the third floor. The advance sale was large.

WOUNDED WOMAN WILL LIVE.

Following an operation at the County Hospital early yesterday, surgeons announced that Mrs. Laura Rocco, 32 years old, of 613 Imperial street, who was shot twice in the head by her husband on Tuesday following a quarrel, will live. Rocco, who ended his life after firing the two shots at his wife, was declared self-slain by Coroner Hartwell yesterday.

Germs breed in the kitchen sink

Small particles of dish-pan refuse will gather in kitchen sinks or out of sight in the drain. These particles putrefy rapidly. They cause germs to breed and menace the entire household.

The sides and bottoms of sinks—especially if they are not enamel—should be scrubbed often with Lysol solution, which should also be poured into the drain.

Lysol
Disinfectant

annihilates all germ life instantly. It is the standard disinfectant in all big hospitals. Hundreds of thousands of families depend upon it to keep disease from their homes.

Use Lysol systematically in sinks, drains, toilets, garbage cans, cuspidors and in dark, damp, sunless corners. You will then make a better fight against disease than it can possibly make against you.

Lysol is very inexpensive. A 50c bottle makes 5 gallons of powerful disinfectant; enough to last for months. A 25c bottle makes 2 gallons.

Lysol is also invaluable for personal hygiene.

Lysol Toilet Soap Contains Lysol, and therefore protects the skin from germ infection. It is refreshingly soothing and healing and helpful for improving the skin. Ask your dealer. If he hasn't it, ask him to order it for you.

STATEMENT OF FUNDING MADE.

(Continued from First Page.)

price of \$150,000, and that no commissions are paid anyone.

LEGAL SIDE OF IT.

That Mr. Parkford is still the real owner of the property with a trust deed protecting him in case of failure of the association to ultimately pay the entire purchase price of \$150,000 was stated yesterday by Mr. Parkford. Under the laws covering California trust deeds Mr. Parkford or any other owner of property could, for failure to meet the terms of the trust deed at the expiration date set for the life of the deed, keep the money paid in as forfeit. Mr. Parkford says that he will never do this, as he is convinced Mr. Lee and Mr. Williams are trying to do what is right and that he is satisfied to make indefinite extensions of the trust.

Mr. Parkford said yesterday: "I sold the hotel property to the American Episcopal Rectory Association for \$150,000, and hold a trust deed. I do not recall whether or not the deed had three years or five years to run, but I have granted Mr. Lee and Mr. Williams extensions and shall continue to do so indefinitely, as I am satisfied they have a good plan. I pay the taxes on the property, and the \$200 a month paid as rent by the lessees of the hotel is used to pay the board of the two elderly couples who have accepted the offer of the association to provide them with a home there for life on payment of \$5000 for each couple."

AS TO "JOHN SMITH."

Mr. Williams said yesterday that the name "John Smith" was used in the advertisements by the association for aged couples to give \$5000 for life care in order so as to avoid using the name "National Episcopal Rectory Association," which, he said, might give the incorrect impression that the Episcopal church had some connection with the home. Mr. Williams said: "The Times' article of Wednesday morning concerning the Episcopal Rectory Association was accurate. Nevertheless, we have never had a single complaint from any of the subscribers, who understood that their money was given as donations which were to be used toward the purchase of the Ontario property. Had the war not come as it did, putting an end to all subscriptions of the kind, we were securing, we should certainly have been able to put through by this time the splendid idea and plan of Dr. Lee, which he hopes to stand as a monument to his efforts on behalf of 'Episcopal clergymen.'"

The Episcopal church cannot, of course, make any investigation of the affairs of the association because the organization was and is in no way connected with the church, as stated in The Times yesterday. Both Mr. Lee and Mr. Williams say they welcome any inquiry into the affairs of the proposed home. Mr. Williams denied that Mrs. Phoebe Hearst, mother of W. R. Hearst, had declined to make a second donation of \$5000 because of the supposed facts she had learned in an investigation of the plan. Mr. Williams showed a letter from the estate of the late Albert C. Billeck, declining on behalf of Mrs. Billeck to make a proposed donation of \$5000 for one room in the home, and returning "a stock certificate." Mr. Williams said that the wording "stock certificate" in the letter was an error, as no stock had been sold, and that the document returned was really a receipt. He denied that E. L. Doherty paid \$5000 specifically for the home of Dr. Anthon.

Mr. Williams declined to make public the list of donors who had contributed \$25,000 for the home, saying that they would doubtless be opposed to any publicity. The name plates on the doors of the rooms in the hotel indicate that \$5000 each was given by Mrs. Anita Baldwin, Mrs. Phoebe Hearst, Mrs. Martha Van Brunt (now deceased), who gave \$10,000, and E. L. Doherty.

LEAGUE INDORSES VICTORY CARNIVAL.

The Community Welfare League, of which H. B. Woodfill is president and Allen Herriek secretary, has endorsed the Victory carnival to be held by the Eagles, on Washington's birthday, at the Shrine auditorium, as a welcome to the returned soldiers. All men in uniform are to be admitted free, and the funds derived will be used in aiding soldiers and their families until the men obtain profitable employment. Capt. Claire Woodwine is chairman of the finance committee.

Woodman will lead the grand march. Following this Miss Young will auction the first honor flag for Los Angeles. Other motion-picture stars will aid in making the entertainment a success. "Parti" Arbuckle will stage a comedy and Frank Keenan will give one of his famous ten-minute talks.

THEY'RE SUSTAINED.

Jurist Who Overruled Jury's Findings Loses on Appeal.

A notable victory was won by the Southern Pacific yesterday, in a decision handed down by Division One, District Court of Appeal, reversing a judgment of Superior Judge Myers, involving a question of damages sustained by land owned by the late John Franklin on the lower Azusa road, near Savannah Station.

Jesse Franklin, administrator of John Franklin's estate, brought an action against the railway company, but Judge Myers, in spite of the verdict, found in favor of the plaintiff in the sum of \$2500, and enjoined the railway company from maintaining the offending dikes and embankments. The District Court both reversed the judgment of Judge Myers, and ordered the question of issuing an injunction remanded to the lower court to be threshed out again on the evidence.

NOT TO BE TAXED.

The Supervisors yesterday adopted the petition signed by twenty-one heads of families for the annexation of the Alpine school district to the Antelope Valley Union High School district. A provision is that the new district shall not be taxed for the high school bonds against the Antelope Valley Union High School district.

Why do Some Folks Dream All Night

If you are one of those healthy individuals who "never dream," be sure you are a deep sleeper. Your sleep does you lots of good.

If your sleep is light or broken—if you dream all night—you can't build up strength and health.

You'll never get sound, refreshing sleep unless you relax. You can't relax in a bed that rattles or groans—or on a spring that squeaks every time you move.

The least noise keeps the nerves on edge. You may not wake up—but your nerves will. That's one reason you dream.

WHAT you need for deep, dreamless sleep all night is a perfectly quiet bed and a spring that invites complete relaxation.

That is why folks sleep so much better on a Simmons Metal Bed and a Slumber King Spring.

The Simmons Bed is noiseless. It locks firm at the corners. The corner locks are made of pressed steel—have much longer bearing surfaces than the average—fit true and snug—not a creak, rattle, or feeling of unsteadiness.

The Simmons Pressed Steel Corner Locks are protected by basic patents. They are the most fundamental inventions of modern bed manufacturing—exclusive with Simmons, not to be duplicated or imitated.

And these patented corner locks have made possible the Three-piece Bed—the new Simmons idea—the spring forming a single unit with the side rails.

THE Slumber King Spring really does what you have always wanted a spring to do.

It is a new, and advanced idea. It is a system of elastic steel strips with spirals of high test spring wire—so combined that the spring action is equal in all directions.

The Slumber King Spring yields to the weight of the body, but supports it. It fits square on the bed. It does not sag, hump—or lose its resiliency. It invites sound, health-giving sleep.

The Slumber King Spring is finished in oxidized silver. It is rustproof. It has no loose ends

or rough corners—cannot wear or tear the ticking.

ONE great cause of the restlessness that leads to dreams is sleeping with someone else.

The most advanced thought of the day about sleep is "a separate bed for each sleeper," either in a separate room or is a Twin Bed.

Physicians have been urging Twin Beds for years—and Simmons Company has long made a specialty of Twin Beds.

They are welcomed by people of nice feeling everywhere.

ALL leading merchants have a Simmons Metal Bed and Slumber King Springs.

A wonderful choice of brass, and enamel in colors and in beautiful natural wood effects to match your bedroom decorations.

If you like, we will send you the names of merchants in this community who can give you Simmons Beds and Slumber King Springs.

THE CALL OF THE WILD.

When the delegation of militant suf-

fragettes arrive from the East the women of California will give them a wel-

come of cold feet instead of the glad hand.

THROUGH A GLASS DARKLY.

It is said that the French girls do not

like the big, round, horn-rimmed spectacles

which so many of the American soldiers

wear. It seems that they interfere with the

delectable business of making goo-goo

eyes.

WELCOME MESSAGE.

Sweden has served notice that she will

furnish refuge and asylum for Gen. Luden-

berg no longer. Here is another national

undesirable. Nobody seems to want him

but the sheriff. About the only places we

wot of where he might find welcome are

Madras and Milwaukee.

THEY CERTAINLY WOULD.

Because a deputy constable of Belve-

re informed the Supervisors that she had

trouble enforcing the ordinance prohibiting

the use of roller skates and "go-devils" the

Supervisors asked the City Council to ab-

olish the ordinance. If boys and girls could

vote those Supervisors would be safe for a

life tenure.

MONKEY BUSINESS.

A burglar in Long Beach broke into a

real estate office and stole a simian from

his home in a cage. Later Jo-Jo managed

to escape from his captor and entertained

the people on the beach by imitating them

in every possible manner. Here was one

class in which a monkey not only made a

monkey of a man, but in which a man al-

most made a man of a monkey.

CHANCE FOR ACTING.

It seems that the Slav peoples really

want a king. Many of them are so used to

an autocratic government that they cannot

get away from it. If they insist on having

a king we might send them Jess Willard.

He is quite a mountain of meat and looks

properly terrifying, and besides that is quite

thrifty, which would help some with a na-

tion that is compelled to practice economy.

WOLVERINE STRIPS.

Women have been recognized by the

Republicans of Michigan to the extent of

being assigned one-third of the membership

on the State Central Committee. On the

ballot they have been given half the places

on the State Board of Agriculture to be

elected this year. So far no candidates for

the Senate or the Governorship have been

developed, but the franchise is still new.

Give the ladies a little time and they will

send their way into larger fields. It is not

everywhere, however, that it is the

Republicans who are giving the women

their larger recognition in the bolsheroos

arena of politics.

THE WASHINGTONS.

It would be a fine thing if the vast

vessel, George Washington, bearing the

President from the creation of the

League of Nations, should be able to dock

on Washington's birthday within view of

the locale of that chiefest military tri-

umph. It would furnish another emotional

chapter of history. Washington argued

against foreign alliances, but that was in

the days of the stage coach and the wind-

jammer. With the airship, the cable, the

express, the liner, the wireless, the tele-

phone and a few other things that defy

time and distance everything this side of

the Milky Way is a neighbor, and national

understandings and agreements are a part

of life. Judge Taft insists that if Wash-

ington were here he would be first in urging

the world covenant—and his judgment is

as good as anybody's.

NEW INDUSTRY.

The smokestack drive on the part of

the Chamber of Commerce is praiseworthy.

For several years the activities of this body

in factory building have been enlarged and

extended, but there is especial reason for

supreme effort at this time. The nation is

going through a readjustment process and

the hour is especially apt for a change of

front on the part of that sweet old Los

Angeles. For a generation or two the city

has sent money out to industry as mea-

sure of iron and steel. We really did not

want our matchless ozone smothered by a

pall of factory smoke. But where electric-

ity, water and oil are the chief agents in

creating power there is small chance to

give the Los Angeles sky a Pittsburgh cast,

and if we are offering a glad hand to Mr.

and Mrs. World we must give them some-

thing to do when they settle in our midst.

They cannot wholly live on climate, and

the fragrance of the propinquity orange

groves. Therefore the necessity of indus-

trial activities is manifest, and as the mar-

ket is right at hand here also the profit-

lies. Gentlemen, get busy!

CLEMENCEAU'S ESCAPE.

Anarchy struck at Clemenceau with

his favorite weapon—the bullet of the as-

sassin; but an alert providence intervened

and it is anarchy itself and not "Le Tigre"

of France that has been touched in a vital

spot. Ever a stranger to fear, veteran of a

dozen duels and three other attempted as-

sinations, France's grizzled Premier dis-

missed the latest attack, which planted two

bullets in his body, as without consequence.

John Ruskin asserted in one of his ad-

mirable lectures that God never calls a

great man from earth until his work is fin-

ished or another has been prepared to take

his place. This may explain why five bul-

lets, fired point blank, failed to attain their

mark. Georges Clemenceau has done much;

but much remains to be done, for which no

other is so admirably qualified. Socialists

and Bolsheviks prize of ideals; but the

attempts assassination of one who has

fought for sixty years the battles of the

French proletariat discloses the goal to

which those ideals lead.

The echo of those shots has already

reverberated around the world, awakening

saw in every loyal heart a realization of

the poisonous nature of the propaganda

which the agents of Bolshevism and I.W.W.

are scattering broadcast over the earth.

Following close behind the wave of sym-

pathy for the wounded leader is one of

righteous indignation against the cowardly

propagandists who are inciting others to

deeds of violence that they are too cow-

ardly to attempt. The menace of that propa-

ganda lies in the effect which it exercises

on weak minds and defective intelligences,

on intellects of too low an order to detect

its sophisms. Possibly the assassin imag-

ined that he was striking a blow for

humanity. The public nature of the attack

proves that it was not a hired mercenary,

but a fanatic who attempted to cut short

the career of one who had done at least as

much as any other of his generation for

the amelioration of the condition of the

working classes.

President Lincoln told a committee of

pacifists during the Civil War that one who

circulated literature advising soldiers to

desert was a worse criminal than the weak-

lings who yielded to his influence and mer-

ited at least equal punishment. Plainly, if

the world is to be made safe for democracy,

it must be rid of the assassin by proxy

who, while slaying not themselves, spread

a doctrine of inclementism and murder.

Fortunately the free governments of the

world are established on too firm a founda-

tion to be overturned by violence. But it

is the duty of every people to protect the

persons of its statesmen from attack by

misguided fanatics and hired assassins; and

the surest preventive is to place a restraint

upon the intellectual anarchists who sow

the poison seed that bears a fruit of strikes,

assassinations, riots and pillage.

Premier Clemenceau lives; but the attempt

upon his life reveals Bolshevism and an-

archy in all their hideousness. There has

already been too much temporizing with the

foes of law and order. Too little attention

has been paid to the sower of tares; too

much confidence has been reposed in the

triumph of justice unsupported by force. In

all free countries altruism has been per-

mitted to encroach upon prudence; and

the foes of all governments have been

emboldened by governmental clemency to

strike at the foundations of society. Ordered

government can be preserved only by a

rigorous repression of anarchy and license;

a society that makes heroes of its Monneys

and Haywoods quickly becomes unsafe for

honest men and women. The reply to the

assault upon Premier Clemenceau must be

a sterner repression of license. Clemency

to anarchists is cruelty to society.

BOTTOMLEY—ANS.

Secretary of the Navy Daniels has

awakened the ire of the British Jingo press

by his advocacy of a policy of ship con-

struction that would give to the United

States the biggest navy in the world. Brit-

ain is as proud of its navy as America is

of its Liberty Bell, and the suggestion that

this country might decide to appropriate a

few naval records is not well received.

In the present instance there seems to

have been a deliberate attempt to awaken

resentment, something very much akin to

German propaganda. An unnamed member

of the President's Cabinet was quoted in

the British press as saying that the money

to finance this ambitious plan of ship con-

struction would be that paid by Great Brit-

ain and France as interest on the war loans

made to them by the American government.

It is to be regretted that Secretary Dan-

iels should be taken more seriously abroad

than at home. The British press and pub-

lic do not seem to be aware that the era

of Democratic financing is drawing rapidly

to a close. The next naval budget will

be passed upon by a Republican Congress,

and while there will be ample provision for

an adequate navy, it is not at all probable

that the money will be forthcoming for any

org of naval construction such as the British

public has been brought by Secretary Dan-

iels's utterance to anticipate.

The British view of America's projected

naval programme is reflected in a signed

editorial by Horatio Bottomley, M.P., in a

recent number of John Bull. Mr. Bottom-

ley there observes:

And then there is Mr. Daniels, the

American First Lord of the Admiralty—

verily, a Daniels come to judgment!

What does he tell us? He says that, un-

less Britain is prepared to accept, without

question, Mr. Wilson's nostrum of the

"Freedom of the Seas," America's policy

will be to build and build and build, until

her navy shall be second to none in the

world—and that is exactly what Germany

said when she introduced her first great

navy bill. In the case of Germany it was

secured by the abuse of the freedom of

our ports, whilst by America we are told

that we will coolly crymen that we are

to come from the interest due to her on

the enormous loans we have con-

tracted to the course of our efforts to

finance the war for the freedom of the

world. But matters are not so simple as

a nutshell, I would say we are having

a little too much Wilson.

One cannot but marvel, in reading that

comment, at the obtuseness of this hon-

orable M.P. Where, Mr. Bottomley, do you

suppose the American government found the

billions that it loaned to its allies? You

seem to labor under the delusion that Miss

Columbia carried it in her stockings. As

a matter of fact, the American government

acted only as a broker in the transaction.

That money came direct from the American

people. They paid it to their government

Hearst against the Peace League.
Of course, of course. What was you expect?

The Hearst-Brisbane gang are ways for Beer, Bolshevism, and Brutality.

The next thing we know Bentick will be sending a bill to the Allies.

But the Democratic candidate for President in 1920 will not be running in Europe, praise be.

Argentina is about to make a loan to Great Britain. Has John Bull worn out his welcome at Washington?

What has become of the shades of Huma who were supposed to be starving when the armistice was signed?

There are a lot of folks in the world who might be able to get by if they did not inherit money, shows 'em up.

With prohibition in effect in the future, what will the moving picture people do for some of their most effective scenes?

A recipe to make carrot marmalade is going the rounds of the press. But there is no law that compels you to use it.

Germany flings defiance at plans of the Allies. But that may change his mind—it has been known to do so.

Uncle Heck says that peace agreement is a good deal like the machinery to produce perpetual motion. It is all right—if it works.

Hurrah for the old U.S.A., ready to pay one-fourth of our come tax by March 15. It cost a lot of money to drive the Hun to heel.

Even "Big Ben," the seal of London, has snorted his approval of deal that promises to make the island the paradise of the Pacific.

Ex-President William Howard Taft writes that he will be in Los Angeles at the end of the month. He will never know what he missed.

The proposed \$10,000,000 center project has reached the committee stage. The second tunnel got farther than that—still there.

So far, Los Angeles has not been the general hub and cry to come for a sample of the big gun manufactured from the Huns to beautify municipal parks.

A couple created a mid-air collision at the opera house last night by arriving before the curtain went up. The man's watch, twenty minutes fast.

Lassen Peak is getting rest again. It was quiescent during the war. It knows enough to do business at the proper time to attract attention.

Harry Linder says that he has touched, tasted and handled the liquor. On account of the price of the stuff the stationer's thrifty Scotch comrade seems to be a matter of surprise.

With the announcement of Grover Cleveland Alexander, baseball pitcher, will return to the team for the coming season, the Detroit Tigers are confident that as well blow out the gas and go to bed. There is no further news of them.

The country will demand a more investigation of the federal rounding the charge that promotion in the army and navy have been obtained by bribes and let the fall where they may. It is quite decent that with the end of the war there are likely to be a lot of investigations. Turn on the light.

The proposed act of Congress to short-time notes running one to five years for any amount of money needed by the government, instead of floating the Fifth Liberty Loan, will be to the attractiveness of the government for national use as a money market.

By the new way of doing the reply to the request for a new loan be made more definite, making the notes short-term, the rate of interest that will add to value as an investment.

TO ANNOY GRANGE PICKERS
N. W. Agitators Packs up and Quits.

Most Districts Have Returned to Work.

Strike Circular is Considered Joke.

The departure yesterday from the orchard districts of the I. W. W. deputy sheriffs announced that the last of the disturbers had been sent to the penitentiary to attempt to incite the strikers to strike. Sastre, who was arrested several weeks ago, was given notice on Tuesday that unless he left the district by yesterday, they would be arrested again. At that time he was reported as trying to get back to his home near Los Angeles, where he had packed his belongings and was waiting for a train to take him to Los Angeles, where he had an appeal to the court in his case heard.

The deputy sheriffs reported yesterday with the exception of the orange districts, a number of the districts were spread about the state, according to the I. W. W. agitators have been eliminated. The next day the agitators were said to be working in the orange districts. "We give up as long as you are here, and we are not going to do anything, and we might as well work," the I. W. W. agitators were said to be working in the orange districts. "We give up as long as you are here, and we are not going to do anything, and we might as well work," the I. W. CITY'S TO RUN A JITNEY BUS.
Service to Griffith Park Is Assured by Council's Action.

Jitney-bus service between Griffith Park and the Pacific Electric at Vermont avenue and Hollywood boulevard was practically assured yesterday when the Council adopted a report carrying the recommendation that \$450 be spent for a jitney bus and \$1108 set aside to pay its operating expenses for four months. The city has ordered the purchasing agent to advertise for bids on the bus.

As soon as the bus is secured, twelve round trips on Sunday and eight round trips each week day will be made. The round-trip fare for children under 12 will be 15 cents and adults will pay 25 cents.

L.W.W. WILL GET NO MERCY HERE.
(Continued from First Page.)

upon falling into the hands of officers of the law it indicated the doubling of the "Hobo Squad" by Police Chief Butler and the issuing of the following statement by District Attorney Thomas Lee Woolwine.

"While the I. W. W. situation has not become at all alarming in this county, I want the public to know that this class of offenders will find scant sympathy in the District Attorney's office. Personally I detest anarchy and treason, and purpose to deal with such offenses justly, but with unyielding force."

After a conference with the District Attorney, Captain of Detectives Home said he believed the District Attorney's assurance that speedy trials and justice will be handed out to such offenders will go a long way toward teaching I. W. W. and Bolsheviks that Los Angeles is not going to be a comfortable place for them to linger long.

PRISON RECORD.
Downey's slayer, who is said to be an out-and-out I. W. W., who came here from Seattle after having served a term for burglary, will be taken to the inquest over the body of his victim, at the undertaking parlors of Edwards, Gamash & Heath, after his case has been held before the grand jury today.

Detectives Leon and China, who are working on the case, say they have proof that Williams served several full sentences in the East before being sent to the penitentiary in Washington, and that he shot a patrolman when surprised on a burglary job one night. The police have been unable to get a confession out of Williams relative to the killing of Sgt. Downey. It is understood that he expects to make the defense that Downey was killed by his own weapon while officer and prisoner were scuffling.

WINS CASE WITHOUT APPEARING IN COURT.
MAN'S TEMPORARY VICTORY DUE TO WIFE NOT BEING A LEGAL RESIDENT.

An unusual situation confronted Judge Wood yesterday, which he unraveled, although not to the satisfaction of Mrs. Lucretia J. Coates, who came to Los Angeles to file suit for a divorce. The case was against her husband, Melchior Wilson Coates. It is not necessary to establish a residence in this action, Mr. Coates filed a cross-complaint asking a divorce on the ground of desertion.

As she had not been in Los Angeles a year, Judge Wood held that she could not be heard on her cross-complaint for divorce. Mr. Coates and Verle Hope Fuller, named as defendants in the cross-complaint, were not in court. Both, however, had filed answers denying Mrs. Coates' allegation that they were living together in Ramona, Ariz.

Attorney Wetherhorn finally decided to dismiss the maintenance action. In this way, Mr. Coates won a victory without a contest. It is understood, however, that when the period elapses in which it is necessary for Mrs. Coates to establish a legal residence, she will file suit for divorce.

The couple were married at Port Richmond, N. J., on October 15, 1914, and separated in 1913.

CATCH DESERTERS?
Three Suspects to be Sent to Camp Kearny This Morning.

Continuing the rounding up of alleged deserters, Detectives Lloyd and Roberts, operatives for the war squad, last night took three men into custody on charges of being absent without leave. One man is said to be an escaped military prisoner. The first man arrested was Joseph Shan, who, it is charged, on January 23 escaped from confinement at Camp Kearny. According to Officer Roberts, Shan immediately came to Los Angeles, and three days later married a local girl. They have been living at Fifth and Wall streets. Virgil Carpenter, said to have been absent from Camp Kearny since December 23, was also arrested at the Shan home. George Sanders, formerly a corporal in Co. L, Thirty-second Infantry, was arrested at Sixth and Spring streets as a deserter. The men will be sent to Camp Kearny this morning.

"CAN" CASE APPEALED.
An appeal was perfected yesterday by Fred L. Chappell of Kalamazoo, Mich., and Raymond Ives of Blakeslee of this city, and signed by United States District Judge Trippe, in behalf of the plaintiffs, in the action brought by the Dunkley Company and the Michigan Canning Company and George E. Grier, which was decided by Judge Trippe, September 4, 1918, in favor of the defendants. The assignments of error cover sixty-four separate and distinct allegations. The original suit was brought by the Dunkley Company to enjoin the Pasadena Canning Company and Grier from using a device to peel peaches by what is known as the "ye process."

WITNESS IN FAINT.
One of Principals in Auto Accident Collapses in Court.

Having just recovered from injuries received in an automobile accident, Mrs. Maria Varela fainted on the witness stand yesterday in Judge Craig's court during the trial for manslaughter of Gaspar Castellanos. She was cared for by court attaches and resumed her testimony in behalf of the defendant.

Castellanos is accused of the death of Bryan Murphy, a switchman at Alameda and Old streets, on November 11, by running him down with an automobile in which he and Mrs. Varela were riding. The case will be submitted to the jury today.

BURGULARS GET JEWELRY.
Cutting their way through a rear window, burglars, yesterday ransacked the residence of Glen Lavin, 259 South Alvarado street, and escaped with jewelry valued at \$500.

COUNTY'S COIN GIVEN A COUNT.
Seven Million in Vaults Is Checked Over by Dodge and Deputies.

The money in the vaults of the county treasury was counted yesterday and found to be the tidy sum of \$7,105,000.18. The counting was performed by Chairman Dodge of the Board of Supervisors, Deputy District Attorney Van Cott and Deputy County Auditor Malard. This amount is slightly less than the last count some weeks ago. The vast store of money is strongly guarded.

DR. FULTON COMING HOME.
Dr. Dudley Fulton, commanding officer of the base hospital at Camp Lewis, will return next week to his old home, 2700 South Grand avenue. Accompanying Dr. Fulton will be his wife and two daughters, who have been with him during the fourteen months he has spent in the northern camp. Dr. Fulton left Los Angeles as a major and chief medical officer, but was soon promoted to the rank of lieutenant colonel.

SHE LEAVES; DIVORCED.
When Robert Roadhouse returned home from work one night, he did not find his wife, May Roadhouse. She had left him for short periods previously, but on this occasion, March 15, 1917, she did not intend to return. Frank Roadhouse, a son, corroborated his father. Yesterday father and son were in Judge Wood's court, the former seeking a divorce. The decree was granted.

Striking Reduction in Package Delivery Cost Wins \$500 Prize for Truck Driver

Here is a distinction which may make a difference of \$700 per truck on his fleet investment, and as much as \$200 to \$250 a year per truck in his operating costs.

It is a matter of buying the truck to fit the job.

Guessing at the size of truck needed is one cause of much of the excess cost in motor trucking.

Motor trucking, its service, its costs and economies, is one of the liveliest issues of the day.

The business man needs first of all to get the facts—the experience of people competent to speak.

That is the function of the Freight-Transportation Department of your local Packard Branch or Packard Dealer.

It is a Department not of Sales but of Service.

Its place and purpose are to tell you, the truck owner and driver, how modern business methods, applied to your present make of trucks, will effect transportation economies in your business.

Its services are without charge. Make use of them freely.

SHE LEAVES; DIVORCED.
When Robert Roadhouse returned home from work one night, he did not find his wife, May Roadhouse. She had left him for short periods previously, but on this occasion, March 15, 1917, she did not intend to return. Frank Roadhouse, a son, corroborated his father. United States District Judge Trippe yesterday admitted to American citizenship the following soldiers from the Arcadia Balloon School: John H. Rogers, a native of England; Christ Theodore, a Greek; and Angelo Zeschetta, an Italian. The court remarked to the applicants that there were no reasons to prevent them from becoming citizens to stand the United States against all hostile enemies, and reminded them that there were enemies of the republic in this country that needed watching. The new citizen would be expected to look after these men as necessary, as well as other enemies of foreign and domestic, he declared.
